

# NovaFount FS-711

*Mild Acid Fountain Solution for High Speed Brush / Spray Dampening*

## Description

NovaFount FS-711 is a zero VOC product formulated specifically for high-speed production in the retail insert market.

## Directions

Use 2.5 to 4 ounces per gallon as needed. The suggested starting dosage is 3 ounces per gallon. Conductivity will read approximately 465 mmhos per ounce of fountain solution concentrate used per gallon.

## Product Need and Usage

FS-711 was formulated for high-speed production on presses equipped with brush or spray dampening equipment. FS-711 provides excellent plate protection and non-piling performance. It is non-corrosive, provides consistent print quality, and is compatible with newer grades of paper.

## Features

- \* Compatible with poor grades of paper
- \* Non-Corrosive
- \* Stable Ink/Water Balance
- \* Consistent Print Quality
- \*Excellent Plate Protection
- \*Excellent non-piling property

## Technical Specifications

VOC (lb/gal method 24)	0.00
Specific Gravity	1.075
pH	4.0
Dosage	2.5 to 4 oz./gal.
Color	Green
