

# N-201

*Economical, All-Day Press Wash for Medium to Large Presses*

## Description

Nova N-201 is an economical, all-day press wash for the quick, reliable and complete removal of soft ink. It is compounded of solvents and conditioners beneficial to rollers and blankets. It is non-water-miscible and dries with no residue on blankets and rollers.

## Directions

**Blankets:** Saturate a rag with N-201 and clean blanket with back and forth motion. Wipe clean with a clean rag.

**Rollers:** Apply N-201 to the top roller and allow wash to work for a few minutes. Engage the wash-up blade and continue to apply small portions to the rollers until clean. Periodic use of warm water and vinegar and a glaze cleaner is recommended to remove calcium and other contaminants.

## Product Need and Usage

N-201 is a mild solvent that can also be used as an economical daily wash-up solvent on duplicators, in corrugated box plants, in the composing room to clean proof press rollers, and in binderies to clean rollers on folding machines.

## Features

- \* Economical; engineered to be used as an all-day wash-up.
- \* Completely dissolves soft inks and prevents ink buildup.
- \* Safer; eliminates the use of ineffective and dangerous solutions.
- \* Controlled drying with no oily residue.
- \* Non-damaging to rollers and blankets.
- \* Non-photochemically reactive.
- \* Recommended by Baldwin for use with Baldwin's Automatic Blanket Cleaner.

## Technical Specifications

Drying Speed	Medium
Water-Miscible	No
Flash Point (°F TCC)	105
VOC (lb/gal method 24)	6.42
Vapor Pressure (mm HG)	3
Odor/Fragrance	Mild / Vanilla
