

N-219

Non-Water-Miscible Blanket and Roller Wash

Description

Nova N-219 was formulated to be a low cost blanket and roller wash product for use in sheetfed and web-cleaning applications. It is a specially sourced, high quality but economical solvent blend, made specifically to Nova specifications to have optimum cleaning performance at the lowest cost.

Directions

Blankets: Apply N-219 to cloth, wipe blanket until ink is removed. For best results, follow with a clean dry cloth to wipe clean.

Rollers: Apply N-219 directly to rollers, engage wash-up blade, allow ink to run off and repeat until ink is removed.

Product Need and Usage

For the printer not willing to sacrifice cleaning power, N-219 offers the printer excellent cleaning performance at the most economical price. N-219 is non water-miscible, eliminating any possible contamination from emulsifying surfactants. It is compatible with press elastomers and equipment.

Features

- * Economical with excellent cleaning performance.
- * Non-damaging to blankets and rollers.
- * Non water-miscible.
- * Mild pleasant odor.
