

N-277 Non-Water-Miscible Blanket and Roller Wash

DESCRIPTION

Nova N-277 was formulated to be a low cost blanket and roller wash product for use in sheetfed and web-cleaning applications. It is specially sourced high quality but economical solvent blend, made specifically to Nova specifications to have optimum cleaning performance at the lowest cost.

PRODUCT NEED AND USAGE

For the printer not willing to sacrifice cleaning power, N-277 offers the printer excellent cleaning performance at the most economical price. N-277 is non-water miscible, eliminating any possible contamination from emulsifying surfactants. It is compatible with press elastomers and equipment.

FEATURES

- Economical with excellent cleaning performance.
- Non-damaging to blankets and rollers.
- Non-water miscible.
- Mild pleasant odor.

SPECIFICATIONS

Flash Point: 107°F

VOC (lbs./gal.): 6.5

Composite Vapor Pressure (mm HG): 2.1

Cleaning Strength: Medium

Drying Speed: Medium

DIRECTIONS

Blankets: Apply N-277 to cloth, wipe blanket until ink is removed. For best results, follow with a clean dry cloth to wipe clean.

Rollers: Apply N-277 directly to rollers, engage wash-up blade, allow ink to run off and repeat until ink is removed.
