

N-4011

SCAQMD Rule 1171 Wash

Description

N-4011 is a one-of-a-kind, ultra low VOC press wash. It contains less than 100 g/l VOC and no vegetable or mineral oil based components. N-4011 does not require rinsing, leaving no oily residue on blankets or rollers. N-4011 utilizes VOC exempt solvents formulated in a user-friendly stable emulsion that is easy to use and leaves blankets and roller totally clean.

Product Need and Usage

N-4011 meets the requirements for 2009 SCAQMD Rule 1171. It is also recommended for the printer trying to achieve "GREEN" status or needing to reduce VOCs for air permitting. N-4011 is suitable for use by hand application for sheet-fed and web presses. It will also clean UV ink and is compatible with UV rubber compounds. The key advantage is NO OILY RESIDUE.

Features

- * SCAQMD Rule 1171 compliant.
- * Works on sheetfed and web presses without catalytic converters.
- * Works on conventional ink.
- * Contains no vegetable or mineral oil based material.
- * Non-flammable, contains no acetone.
- * User-friendly, stable micro-emulsion cleaning power.

Directions

Blankets: Apply with shop cloth and wipe to remove ink and piling. Use of a water-dampened cloth to follow is optional to remove all residue.
Rollers: Apply N-4011 to top roller and allow to circulate. Engage wash up blade and repeat small applications. Finish with a few applications of water. N-4011 has not been certified for use in automatic blanket and roller wash systems.
NOT FOR USE WITH CATALYTIC CONVERTERS!

Technical Specifications

Drying Speed	Medium
Water-Miscible	Yes
Flash Point (°F TCC)	119
VOC (lb/gal method 24)	0.82
Vapor Pressure (mm HG)	0
Odor/Fragrance	Solvent
