

# N-401

*Low VOC Blanket Wash for Automatic Blanket Washers for Web Presses*

## Description

Nova N-401 is a 2.2 lbs./gal. VOC product composed of a high flash point solvent blend and a specially synthesized non-VOC, non-hazardous cleaning compounds. N-401 is formulated to reduce costs. It has very low rubber swell characteristics and is recommended for use on web presses using sleeve blankets. N-401 can also be used on sheetfed presses where a 30% VOC is required.

## Directions

Automatic Wash System: Prior to installing N-401 on one of the automatic systems, some adjustments to the blanket washer may be required if replacing a 100% VOC solvent. Contact your Nova Pressroom Products and blanket washer manufacturer's representatives to arrange for converting your system to use N-401.

## Product Need and Usage

One of the key environmental challenges for both the sheetfed and heatset web printer is to continually reduce VOC output. With the reduced VOC and consumption rate, using N-401 can reduce VOC output by 85% compared to conventional qualified automatic blanket wash solvents.

## Features

- \* Low VOC of 2.2 lbs./gal.
- \* Reduces VOC by 85%.
- \* Automatic wash for web and sheetfed systems.
- \* Mild odor.
- \* Reduces consumption by 50%.
- \* Reduced cost.

## Technical Specifications

Drying Speed	Slow
Water-Miscible	Yes
Flash Point (°F TCC)	165
VOC (lb/gal method 24)	2.20
Vapor Pressure (mm HG)	0.2
Odor/Fragrance	Mild Solvent
