

**N-442**

*Rule 1171 Wash for UV and Hybrid Inks*

### **Description**

N-442 UV Wash is an SCAQMD Rule 1171 compliant wash for UV, and hybrid inks. The special blend of low VOC and exempt solvent components is compatible with UV hybrid roller. Not recommended for EPDM.

### **Directions**

Blankets: Apply a conservative amount of wash with a cloth wiper to remove the ink and blanket piling. Wipe clean with a water-dampened cloth.  
Rollers: Apply small amounts to one half of the roller train at a time. Alternate sides and repeat until the ink is removed. Rinse well with water or for best results, use Nova N-472 Rinse-Away.

### **Product Need and Usage**

Cleaning UV is especially difficult for a Rule 1171 wash. N-442 UV wash is formulated to have good cutting power for UV and have good fluid properties for transfer through the rollers.

### **Features**

- \* SCAQMD Rule 1171 compliant, less than 100 g/l VOC.
- \* Excellent rinsability, no oily residue.
- \* For use on sheetfed presses.

### **Technical Specifications**

Drying Speed	Slow
Water-Miscible	Yes
Flash Point (°F TCC)	20
VOC (lb/gal method 24)	0.81
Vapor Pressure (mm HG)	0.01
Odor/Fragrance	Strong Solvent
