

## SP-515

*Plate Cleaner / Scratch Remover*

### Description

SP-515 Plate Cleaner / Scratch Remover is a multi-purpose cleaner for use on most brands of thermal and violet processed metal plates. It is designed to remove ink, gum glaze and paper. It is also a good desensitizer for sensitive plate areas and scratches. SP-515 is also suitable for use as a cleaner /desensitizer on chrome rollers and metal cylinders.

### Product Need and Usage

SP-515 Plate Cleaner / Scratch Remover can be used as a general purpose cleaner on both sheetfed and web presses. Modern CTP plates may become sensitive due to wear from friction, build-up of contaminants, and damage in handling. SP-515 will clean and desensitize plates from all of these sources.

### Features

- \* Compatible with most thermal and violet CTP plates.
- \* Fast cleaning emulsion.
- \* Excellent cleaner and desensitizer.
- \* Multipurpose for plates, chrome rollers and impression cylinders.

### Directions

Sheetfed Press: Use when press is stopped. Saturate a water-dampened cloth or sponge with SP-515 Plate Cleaner / Scratch Remover. Apply to surfaces to be cleaned; then wipe off with a clean, dampened cloth.  
Web Press: Follow the same procedure as with sheetfed. For emergency clean-up, SP-515 may be applied directly to the plate with a spray bottle while the press is running.

### Technical Specifications

Flash Point (°F TCC)	>200
VOC (lb/gal method 24)	0.82
Specific Gravity	1.01
Water-Miscible	Yes
Color	White
Odor/Fragrance	Mild Solvent

Rev. 5/19/2008
