

## N-433UV

Low VOC UV Wash

### Description

N-433UV is a 30% VOC wash for UV and Hybrid inks. It is water-rinsable and will leave no oily residues on blankets and rollers. N-433UV is also specially formulated to work on cloth and brush automatic blanket wash systems.

### Directions

**Blankets:** Use straight or dampen rag with water and N-433UV and apply to blanket in the normal manner. Wipe clean with a water-dampened rag.  
**Rollers:** Apply a small amount of N-433UV to rollers and allow wash to run in for 1 minute. Engage the wash-up blade and repeat applications until rollers are clean. Apply water as a final rinse step.  
**Automatic Blanket and Roller Washer:** Follow blanket washer manufacturer's instructions.

### Product Need and Usage

The need for a low VOC blanket and roller wash is increasing as regulations in various parts of the country require tighter emission controls. N-433UV is also recommended for use on the Baldwin Impact Flex as the UV "Kicker Solvent."

### Features

- \* Low VOC, 30%.
- \* Suitable for automatic wash systems.
- \* Recommended for use on UV composite compounds.
- \* Low odor.
- \* Water-rinsable formula.
- \* Corrosion inhibited.

### Technical Specifications

Drying Speed	Slow
Water-Miscible	Yes
Flash Point (°F TCC)	185
VOC (lb/gal method 24)	2.31
Vapor Pressure (mm HG)	0.15
Odor/Fragrance	Mild Solvent
